

STAY SECURE, STAY PROTECTED

Do you want to continue to treat cyber security as an overhead, or do you want to reap the multitude of business benefits that it can deliver?"

We are transforming cyber security often seen as an unnecessary overhead to a business enabler. Protect your data and your reputation with The Rybec Group

WELCOME

Welcome to The Rybec Group a people-centric cyber security company, where your data and reputation are our top priorities. We understand the value of trust and the importance of safeguarding your digital assets. With our unwavering commitment to Information security, we go above and beyond to ensure that your sensitive information and business reputation is treated as if it were our own. We believe in the power of building lasting partnerships based on trust and integrity.

WHO ARE WE?

The Rybec group were handpicked by Barclays Eagle Labs and an international innovation company Plexal to take part in the first Manchester DiSH cyber accelerator program for up and coming cyber businesses and have been named as one of the top ten cyber startup businesses to watch.

With our background in cyber-crime investigation we have seen cyber-crime full circle from the victim of crime to the cyber-criminal which gives us a unique insight into cyber-crime and the criminal mindset of cyber offenders.

WHAT WE DO

We understand the importance of safeguarding your sensitive data and maintaining the trust of your stakeholders. With cyber threats becoming increasingly sophisticated, it is crucial for businesses and educational institutions to have robust security measures in place.

Our expert team specialise in providing tailored Cyber Security Solutions.

Our core services include Cyber Essentials, ISO 27001 Information security management System (ISMS) implementation and audit, GDPR compliance, and cyber security awareness training for the commercial and education sectors.

Trust us to keep you one step ahead of potential cyber threats. As part of our trusted partner network we work closely with industry leading experts to provide a full cyber security and Risk management package to protect your business.

CYBER ESSENTIALS, ISO 27001 ISMS IMPLEMENTATION

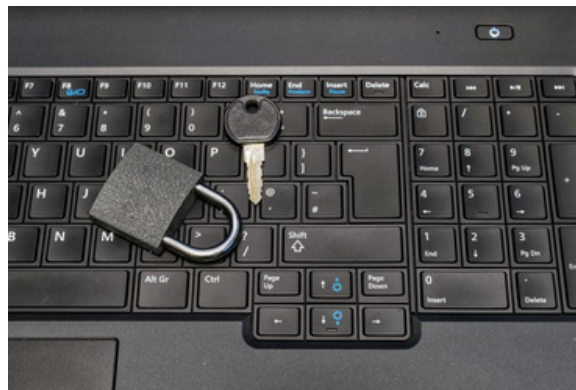

Protect your organisation's vital assets by achieving Cyber Essentials and ISO 27001 certification. Our team of certified professionals will guide you through the implementation process, ensuring that your information security management system (ISMS) aligns with the industry's best practices. We conduct thorough audits to assess your system's effectiveness and provide recommendations for improvement.

By achieving Cyber Essentials and ISO 27001 compliance and certification, you demonstrate your commitment to information security, enhance your reputation, and gain a competitive edge in the market.

GDPR COMPLIANCE

Don't let non-compliance jeopardise your business. Our experienced consultants are well-versed in the UK General Data Protection Regulation (UK GDPR) requirements. We offer comprehensive GDPR compliance services, including gap analysis, data protection impact assessments, privacy policy development, and data breach response planning. Our tailored solutions will help you navigate the complex regulatory landscape, mitigate risks, and ensure the privacy and security of personal data.

CYBER SECURITY AWARENESS TRAINING

Empower your staff and students with the knowledge and skills to defend against cyber threats. Our interactive and engaging cyber security awareness training programs designed for both commercial and education sectors. We offer both in-person and online training options to accommodate your organisation's needs. Our expert trainers cover a wide range of topics, including password hygiene, phishing awareness, social engineering, The Computer Misuse Act 1990 and safe internet usage. By investing in cyber security education, you create a vigilant culture that protects against potential cyber-attacks.
