A FARM-BASED, FAMILY RUN BREWERY

Celebrating its 20th anniversary this year, Wold Top Brewery has gone from producing 1.6k litres of beer a week with no paid staff, to a team of 19 who produce over 40k litres per week sold throughout the UK and to export customers in Europe, North America and Scandinavia.

In 2015, Wold Top Brewery invested in a new brew plant and extended the brewery size by 150%, adding contract brewing for bottling for small to medium size breweries to its offering. The team also installed two washbacks for making the wash for sister company, Spirit of Yorkshire's whisky (Yorkshire's first single malt whisky).

Wold Top's ambition is to continue growing and exploring new markets, while still providing the same level of service and quality to its existing markets.

WOLD TOP.

VISION

Wold Top is a farm-based family-run brewery with a simple vision: making great tasting beer, using home grown and sustainably sourced ingredients for the rest of Yorkshire and the world to enjoy.

CORE VALUES

Wold Top's guiding principles are to maximise the quality and potential of every grain in the business. The team brainstormed its core values and these are the ones agreed by all to sit at the heart of the business:

- **Future focused:** always looking and planning ahead for customers and communities
- **Green and sustainable:** ensuring that everything the team does helps future generations
- **Welcoming:** making sure everyone feel warm and welcome
- **Togetherness:** the team has a close working relationship and team members support each other with goals
- **Quality:** striving for excellence and consistency in business roles

CATERING FOR A VARIETY OF TASTES AND DIETARY REQUIREMENTS

Wold Top produces and sells a range of all-year-round favourite and limited edition seasonal special beers that are available in a number of formats from bottles through 5l mini casks and 20l polypins for home consumption, to kegs and casks for trade customers.

The brewery caters for a large variety of tastes with beers of all styles from lager to porter. All of Wold Top's bottled beer is suitable for vegans and there is a good choice of gluten free beers.

GIVING BACK

Wold Top has many highlights, but one of the biggest highlights of growing a business to this size is the opportunities the brewery has been able to give to local people in providing employment in an area of rural deprivation.

Additionally, the brewery has provided workplace opportunities for many local students.

The brewery team is proud to have raised over £100,000 for charity over the years as it continues to host events that attract visitors to the local area.

WINNER OF OVER 50 AWARDS

The team has won over 50 awards for the quality of the brewery's beer, its business acumen and its green credentials.
